

JACK BRITT HIGH SCHOOL

Integrated Systems Technology Academy of Engineering

The mission of the Integrated Systems Technology Academy of Engineering (ISTA) is to provide students with the opportunity to study and learn technical design, engineering concepts, and the skills needed to compete in the global job market. It also provides students with a rigorous pre-engineering curriculum that is centered around problem-based learning and critical thinking.

Courses Offered

- Technology Engineering & Design Honors
- Integrated Systems Technology I Honors
- Integrated Systems Technology II Honors
- Drafting I Honors
- Drafting Engineering II Honors
- Principles of Technology I Honors
- Principles of Technology II Honors
- Choose between:
 - Drafting Engineering III Honors
 - Integrated Systems Technology III Honors
