3. Then click on Canvas

Canvas - LEA 260

What is needed for students to be successful online?

A: Students will need:

- dependable internet access
- check school email regularly
- laptop, Chromebook, or desktop computer
- quiet study space with minimum disruption or headphones
- to commit to set aside a regular time each week to keep pace with the assignments.
- self-motivation and to be organized
- attend live lessons on time
- a strong commitment to learning

B: The role of the parent/guardian is critical. A few suggestions for supporting your students are:

- Help your student develop a schedule for each week.
- Monitor Canvas for student grades and completion of work.
- Monitor your student to ensure that he or she is working on schoolwork or attending live lessons
- Provide a specific location for your student to work that is free from distractions and allows for monitoring of your student's online activity
- Review your student's work before it is submitted and make suggestions for improvement (if applicable)
- Do not complete work for your student
