CCS Launches COVID-19 Dashboard

Dashboard provides weekly update on positive COVID-19 cases in school district

Fayetteville, N.C. – Cumberland County Schools (CCS) has created a COVID-19 dashboard to provide up-to-date information on positive COVID-19 cases in the school system. District staff will update the dashboard on Friday of each week. To access the dashboard, visit <http://bit.ly/CCSCOVID-19Dashboard>.

“As we navigate through this pandemic, we encourage everyone to follow the guidance of health officials,” said Shirley Bolden, director of Health Services for CCS. “It’s important that we continue to practice the three Ws -- wear a cloth mask over your nose and mouth, wait six feet apart and avoid close contact, and wash your hands or use hand sanitizer. These actions will help flatten the curve and slow the spread of COVID-19.”

CCS is currently operating under Plan C, and students are participating in remote learning through the end of the first semester. The origin of each COVID-19 case varies based on the individual; not all of the cases listed in the dashboard originated on CCS campuses. To comply with federal privacy laws, the district will not release additional information about individuals who have tested positive for COVID-19 beyond what is listed in the dashboard.

The district remains in close contact with the Cumberland County Department of Public Health Director and continues to follow all necessary protocols related to the coronavirus. To learn more about health and safety precautions established by the district, visit www.reentry.ccs.k12.nc.us to access CCS' Health Services manuals for families and staff.

COVID-19 DISCLAIMER: All Cumberland County Schools district-level and school-based communications or guidance (e.g., handbooks, websites, social media communications, etc.) are subject to change at any time due to changing COVID-19 conditions and related health or safety guidance.
